As soon as the application is approved, your family members must, if necessary, obtain a visa at the Bulgarian embassy or consulate in their country of origin. Family members who plan to stay in Bulgaria for more than six months must also obtain a residence permit from the Migration Directorate after arrival in Bulgaria.

- Documents required - To be eligible for family reunification, family members must prove: accommodation; sufficient financial resources; and medical insurance coverage for the duration of their stay.

Health Requirements

International students who apply for a student visa will be required to obtain a Health Insurance prior to their arrival in Bulgaria. Local and European students are requested to apply for a European Health Card in their home country for health coverage at government hospitals throughout the European Union. Incoming mobile students are often provided with a health insurance from their home/sending university, or possess one before arrival. International students from non-EU countries will have to present a new insurance for the period of the residence permit, when their visa expires. In order to obtain long-stay permission the person should have a home, obligatory health insurance, sufficient subsistence means, without resorting to the social assistance system, amounting to at least the minimum monthly wage or the minimum pension according to Bulgarian law for the period of stay.

Arriving in Bulgaria

Once you have arrived in Bulgaria with your valid visa (in case you need a visa to enter the country), you must also obtain a residence permit from the Migration Directorate one month prior to your visa expiration.

Length of your visa/immigration permission

A long-stay visa of up to 6 months and a right to stay of up to 180 days is issued to foreigners who wish to settle for a long term or permanently in the Republic of Bulgaria (under article 15, paragraph 1 of the Foreigners in the Republic of Bulgaria Act). The long-stay visa entitles the holder to multiple entries in the territory of the Republic of Bulgaria within its validity term. The long-stay is cancelled on issuing a permit for stay by the authorities for administrative control of foreigners.

Students need to apply for the renewal of their residence permit one month before the expiry date of the visa or previous residence permit. The duration of your residence permit is aligned to the duration of your study programme. It is granted for a maximum of one year and is renewable.

Once your study programme ends your residence permit will no longer be valid and you must return home. If you apply even one day after the expiry date of your residence permit, the penalty is between 500 to 5000 BGN. Have in mind that the Director of the Migration department can decide instead of penalty, to deport you immediately, **SO DO NOT ALLOW YOUR VISA TO EXPIRE UNDER ANY CIRCUMSTANCES!** Note that it takes 4 weeks to get the residence permit and during these 4 weeks you cannot leave the country.

For more info please contact the Student Welfare Department in Head Building of Varna University of Management or in Dobrich Campus. Contact details find in Crucial Guide Directory, see page36.

Currency

The Bulgarian Lev is the currency of Bulgaria. The currency code for Leva is BGN, and the currency symbol is лв. One BGN is divided into 100 stotinki (ст.) and coins are in use with nominal value of 1 BGN, 1ст., 2ст. , 5ст. , 10 ст. , 20 ст. and 50 ст. You may find banknotes with the following nominal value 2 BGN, 5 BGN, 10 BGN, 20 BGN, 50 BGN and 100 BGN. Please, note that many shops and business are unwilling to accept banknotes of 50 BGN and 100 BGN, so you need to get these changed in a bank. If you need to find out current exchange rates www.xe.com is very useful.

Banking

You should open a bank account in BGN as soon as possible after you arrive. It's advisable to check which banks have branches nearby and whether they have staff who speak your language.

Do not leave large amounts of cash in your room even if the door is locked.

In Bulgaria commercial banks provide a full range of banking services. There are currently 28 commercial banks, over 90 per cent of which are foreign-owned, and six branches of foreign banks (see below).

The Bulgarian National Bank (BNB) is the authority which sets interest rates and regulates other banks; you cannot open an account with the BNB.

Due to the long partnership and created loyalty and trust, VUM recommends student to open an account in:

- 1) International Asset Bank - Please, get information about the nearest bank branch from here: <http://www.iabank.bg/en>
- 2) Unicredit Bulbank - Please, get information about the nearest bank branch from here: <http://www.unicreditbulbank.bg/en/index.htm>

Types of account

Current Account: This is the basic account which you use for your day-to-day purchases and deposits. This type of account normally comes with a cash card, with which you can take money from cashpoints (ATMs) up to a daily maximum limit. Cashpoints (ATMs) are usually accessible 24-hours a day and located on the exterior walls of banks and in some shops.

Please note that if you use a cash machine which is not from your bank, you may be charged for taking money out. The machine will warn you if this is the case.

A current account is important because it allows you to set up regular payments and in case of good student performance to receive your monthly scholarship. It is a valuable tool for international students applying for residence permit, by which they must prove financial fund possession of 1500 BGN prior applying for residence permit.

Savings Account: It is a good idea to open a savings account if you intend to deposit a lot of your money in an account which isn't used regularly. You will receive a higher interest payment from the bank if you keep money in a savings account. The money may not be accessible and you should check carefully the method for moving or withdrawing your money.

It is a good idea to keep a careful track of your finances and your account. If you look after your account and pay your bills on time, it is more likely that you will be able to arrange special provisions through your bank.

Keep and file your bank statements. They are necessary to support the immigration application.

Opening a bank account

Opening a bank account in Bulgaria sometimes might be difficult experience for international students. You should ensure that you have enough money to cover you for your first two weeks in Bulgaria. To open an account here, all you need is your passport and evidence of your address in Bulgaria. Your accommodation contract with the University Dormitories will normally be sufficient proof of your Bulgarian address. It is advisable also to bring a Declaration issued by the University in order to open your bank account. The Declaration will confirm your student status by giving more details regarding the course you have been enrolled to, your student academic number and the address you have been accommodated in. There's no charge, but you must make an opening deposit of at least a few BGN.

Opening bank hours

Banks are normally open daily between 08:30 and 17:30, Monday till Friday. Some of the bank branches work during weekend but on different open hours. See each bank's website for further details.

Students are ranked by their academic performance according to the year and field of study. After the payment of the full amount of the tuition fee the scholarship is paid on monthly instalments, within five months of each semester to the bank account provided by the student.

Example: a student in the fourth semester is awarded a scholarship based on academic performance of the second and third semester. Student in second semester scholarship based ranking success of the first semester.

Students qualify for scholarships according to their academic performance as follows:

Scholarship Type/ Performance of students according to their grades %	Academic performance	Discount (scholarship) for the rent at VUM dormitory	Scholarship for active involvement in VUM's activities, other initiatives (incl. scholarships from the ESF)	Grand total of scholarship

In the ranking of academic performance students can participate with up to 2 failed exams of the previous two semesters. Students with more than two failed exams (from liquidation or re-sits) begin receiving scholarship according to the estimated success of the month in which only two failed exams remain. The scholarship is paid monthly within four-five months of the semester. The liquidation exams are at the beginning of each academic year in October.

The academic performance is calculated as the grades of all subjects are taken into account (including the grades of one or two failed exams).

Example: If a student in the first semester with more than two failed exams pass the exams and remain only two failed exams in March of the academic year and qualifies for € 500 scholarship, he began to receive his scholarship for the semester of the same month - For the months of March, April, May and June € 100 each, but losing the right to receive € 100 in February.

Cost of living

Living in Varna or Dobrich is comparable to living in any other major city in Bulgaria. Bulgaria is a famous destination with the low cost of living in Europe and therefore is one of the most attractive destinations to many nationalities.

Here you will find some approximate amounts of utility bills (electricity, water, and internet), based on previous students' experience:

- ✓ Electricity – it's going to be different depending on the season. In case you occupy or have rented a flat, the utility bills might be for summer season (no more than 25-30 Euro) and during winter is highly possible to reach 50 -75 Euro.

Shopping

Most shop opening hours are 10:00-19:00, from Monday till Sunday. Many larger stores have at least one late-night opening until 19:30-20:00 and some large supermarkets offer 24-hour shopping, seven days a week. You can get bedding and kitchen utensils from department stores and some of the larger supermarkets. Watch out for sales in June, September and December/January. In Bulgaria customers should pay the price displayed – there is usually no question of bargaining. People form a queue to make purchase.

How much do things cost?

Prices are very different depending on where you shop and what products you buy. Supermarkets often have “own-label” brands which are cheaper than more recognized brands. You could also explore local markets where food costs, especially fresh food and dairy, can be substantially cheaper. The chart on page... will give you an approximate idea of the cost of basic products and bills.

Computer equipment

It is advisory students to arrive with their own personal computer. In case you do not have one, you can easily buy one in Bulgaria and you may be able to sell your computer to another student after your studies.

A wide variety of shops sell computers including large supermarkets, department stores and electrical good shops. Some of these are Ardes, Office1Super Store, Technomarket, Technopolis and others.

If you choose to buy or bring a computer, you should ensure it is covered by your contents insurance.

Food from overseas

Please note that the chart below is only a guide to some of the products you can buy. Some of the larger supermarkets and shops stock a range of products imported from other countries. There are also some delicatessens where you will be able to find the foods you are used to eating at home.

Clothing

The price of clothes varies enormously and how much you spend will depend on your budget. Shops such as LC Waikiki, H&M, Calliope and some large supermarkets like Piccadilly, Carefour and Billa

www.vum.bg

have very inexpensive clothing lines. Shops such as Zara, Bobo Zander, Bershka, etc. are more expensive. In general, if you do not own a waterproof/winter jacket or warm clothes, it is advisable to wait until you get here before purchasing them.

The Career centre of Varna University of Management was founded in 2006 Academic Year. Since then, we have been preparing undergraduates, graduates, and alumni to make informed decisions about their futures by providing resources, programs, and counselling on career development, internships, employment, and continuing education.

Varna University of Management offers students a different style and type of learning. It strives to establish a good balance between theoretical and practical skills. It encourages students to put theory into practice by demonstrating the skills they have developed in real-life situations - either in VUM's training facilities or in various companies VUM has business relationships with.

VUM's students, educating in the field of Tourism and Hospitality, are presented with excellent career growth opportunities in an international context. The compulsory internships for every first and second year student serve as an excellent starting point for those who intend to reach TOP management level in broad aspects of the tourism industry both in Bulgaria and on an international level. The majority of the students from this area occupy middle and top management positions in multinational tourist organizations working as hotel managers, F&B and Front Office Managers, Senior Administrators, Marketing Managers and many others.

VUM's students, educating in the field of Business, are qualified to occupy positions in the field of strategic management and marketing, international business planning, HR, brand management, sales, finance and in many other realms of global business. They are placed for a compulsory internship after the first and the second year of their education in companies not only in Bulgaria but in United Kingdom, Germany, Spain, Greece, Malta, Lithuania, Latvia etc. Find contact details on page...

If this happens, we encourage any student who finds herself or himself in some sort of difficulty or distress, or feeling under particular pressure, to ask for help at an early stage. It is usually helpful to try not to let things drag on or to get out of control. And it's particularly important that a student asks for help if a problem is likely to affect his or her academic work. Common reasons for seeking help include: low

Study Methods

While you are studying in Bulgaria, you will experience several different methods of teaching and learning. You will be trained to read widely around a topic and research it thoroughly, to reflect on the ideas you have encountered and to analyse and describe them. You may be familiar with some or all of the learning activities described below, each of which serves a valuable purpose.

Lectures

Lectures are the most traditional form of teaching method. They allow lecturers to give information to a large number of students. Even if notes are provided you should listen carefully and make your own notes of the important points. You may also be directed to online resources associated with the lecture.

Seminars

Seminars are discussion groups with your tutor and a group of students. The discussion could be about a previous lecture or a specific topic. Sometimes each student is asked to prepare a short presentation to the group as a basis for further discussion. Seminars are more informal than lectures and allow you to become more involved. Preparation and reading beforehand are essential. Always tell the tutor if there is something that you misunderstood and ask if you can make a separate appointment.

Workshops and Practice Sessions

If you are going through a course with practical element some of your time will be spent in workshop and practice sessions where you can develop skills and expertise through practical work. Afterwards you may have to write up the results and you could be asked to give a presentation on them.

Private studies

On all courses you will be expected to study extensively on your own. You will be asked to read widely on a subject, make notes, research, write and revise outside of formal teaching – this is especially in postgraduate level. Lecturers and program directors will be ready to help but you will have to plan your learning, deciding how much time to put into it and which learning methods fits you best. You will be encouraged to be active and independent student.

Assessment

During the course of your study in Varna University of Management you may encounter a number of different forms of assessment ranging from formal examinations to coursework assignments, projects or essays. Each of the subjects and modules might vary with the assessment criteria, therefore students should check with the Student Affairs Office for any advice or further clarifications.

Living in Varna and/or Dobrich

One of the great opportunities of moving to another country is to find out about other cultures and meet new people. This section is going to provide you with useful information on living in Bulgaria and what you can expect when you arrive.

Basic notes:

- Local people are very nice - Appreciative, attractive and pleasant. They like to meet friends for coffee and when they do, they sit for a long time and talking to each other.
- Cost of living is relatively lower than the one in Western European countries.

www.vum.bg

- If you are invited to someone's home for a meal, it is polite to take a small gift (flowers, wine and chocolates) and to invite them to your home in return.
- When you are in a bank or any shop you are expected to queue, stand in line and wait your turn. People tend to get very angry if you "jump the queue".
- Local people always tend to leave tips in a restaurant, bars or pubs.
- Local people feel to have more conservative attitude to sex and sexuality.

Climate and clothing

Bulgaria has a temperate-continental climate with moderate features which is characteristic for Central Europe, with hot summers, long, cold winters and very distinct seasons. Abundant snowfalls may occur throughout the country from December to mid-March. Make sure that you have warm clothes which will protect you in all types of weather. Lightweights are worn in summer on the coast and in low inland areas. Warmer clothes are needed in winter and throughout the year in the uplands. Rainwear is recommended throughout the year. You may find cheaper to buy waterproof jacket and strong waterproof shoes when you arrive in Bulgaria. You should always be prepared as weather is easily changeable during the autumn and spring.

Bulgarian Food

Bulgarian food is tasty, fresh and hearty. Bulgaria is famous for its quality vegetables and dairy products and its variety of mild spices. Pork and chicken are the most common forms of meat, though fish and veal dishes are also popular and lamb has a special traditional place in Bulgarian cooking. While many of the staples of Bulgarian cuisine you would also find in Turkey, Greece or Serbia, in Bulgaria each of those has its own local flavour to set it apart from the Balkan neighbours' version.

Smoking

A comprehensive smoking ban has been introduced prohibiting smoking in all public places including bars, restaurants, clubs, workplaces, stadiums, etc. and came into effect on 1 June 2012. When you are in a company of others it is polite to ask if they mind whether you smoke, especially at meal times.

Electricity

Bulgaria's standard electricity supply is 220/230 volts AC with a frequency of 50 hertz. For other equipment, a transformer or adaptor is required unless the appliance has a multi-voltage option.

Drinking water

There are more than six hundred mineral water springs around the country, so this is something you'd better taste and drink. In some regions tap water is not safe to drink.

Security and Personal Safety

Bulgaria is relatively safe place, by taking on board some simple crime prevention advice you can help to prevent yourself becoming a victim of crime. Carry adequate identification at all times. Keep a photocopy of your passport in case of loss or seizure. Ensure that your personal belongings and passport and other travel documents are secure at all times. Valuables and important documents should be stored in a hotel safe. Avoid showing signs of affluence and carrying large sums of cash.

Burglaries – are usually a result of an open or unlocked door or window

- ✓ Keep your windows and doors locked when you are out of the house
- ✓ Do not leave your valuables on view
- ✓ If you have got a house alarm use it
- ✓ Does your house look secure? If the answer is no then speak to your landlord

Personal Safety

- ✓ Do not make yourself an easy target – walk and travel in groups
- ✓ Be aware of your surroundings and keep valuables out of sight

Health Care

Bulgaria has compulsory common healthcare insurance. All insured persons in Bulgaria select their family doctor (general practitioner), whom they visit when necessary. If the general practitioner is not competent to treat the illness, he or she provides written permission for the patient to visit a specialist also working with the National Health Insurance Fund. When visiting the general practitioner or the specialist recommended by the general practitioner, a small fee is paid. As of 1 August 2011, the fee was 1% of the minimum salary in the country, or 2.70 BGN (1.40 Euro).

There are a large number of specialized private offices and medical facilities in Bulgaria. On receiving consultation and/or treatment at these facilities, patients pay the entire amount for the examination and/or treatment, regardless of whether they have health insurance.

Medical care for foreigners who are residents of the EU, EEA and Switzerland.

Citizens of any of the above member states who are visiting or residing in Bulgaria have the right to avail themselves of their health insurance. When obtaining medical care, they need only to visit a medical facility or diagnostic laboratories that have concluded a contract with the National Health Insurance Fund (NHIF), or any of the state or municipal medical institutions (see the file entitled Healthcare Establishments Register) that are supported by the Ministry of Health.

They need to present their European Health Insurance Card (EHIC). Under exceptional circumstances, this right can also be proven by providing a Certificate for Temporary Replacement of the EHIC issued by the same institution that issued the individual's health insurance card, along with valid identification. It is also necessary to provide the medical practitioner with copies of these two documents. Likewise, by presenting the required documents non-Bulgarians only pay the consumer fee required of Bulgarian insured citizens for the following medical and dental care:

Non-Bulgarian patients are also required to sign a declaration (Annex 2), by which they certify that they are not in Bulgaria solely for medical treatment.

Medical and diagnostic examinations and hospital treatment

When additional examinations or hospitalization is required, the general practitioner is the one to provide the recommendation. The healthcare facilities are required to prominently post information regarding the price of medical services; the cases in which patients have to pay for the medical care; and the manner and terms of payment for the medical care.

If the condition is urgent (for instance, in case of a stroke, car accident, heart attack, and the like), patients will be admitted to a hospital without a recommendation from the general practitioner.

Obtaining medical care without the required documents or an identification document

If upon obtaining medical care during a temporary stay in Bulgaria an individual does not present an EHIC and/or identity card, he or she will be treated as a private patient. In these cases treatment shall be paid entirely by the patient or by the insurer, if the individual has health insurance. The same also applies for cases where it is clear that an individual has travelled to Bulgaria for medical treatment without the official permission (E112) of the responsible institution in the individual's native country.

Medical assistance for citizens of countries other than the member states of EU, EEA and Switzerland

Citizens who require medical care in Bulgaria must pay for those services in full. If a patient possesses health insurance, the insurer is responsible to reimburse the costs, whether in their entirety or in part, according to the terms of the insurance agreement. It is very important to know, that health insurance do not cover any treatments, as a consequence of alcohol or drug abuse.

If you need an advice or someone to assist you with booking an appointment with the right medical person or a doctor do not hesitate and approach International Affairs Office.

Emergency assistance

www.vum.bg

In case of an emergency, regardless of citizenship, place of residence, or health insurance status, every Bulgarian medical facility is required to offer the necessary diagnosis and treatment. If you are in an emergency situation, medical or otherwise, call the free telephone number 112. The operators also speak languages other than Bulgarian. There are different conditions stipulated for the residents of the states with which the Republic of Bulgaria has agreements and contracts for medical insurance.

In case you need to obtain more information about healthcare and the conditions for using healthcare services paid by public funds in Bulgaria, visit the site of the Ministry of Health (www.mh.government.bg) and the site of the National Health Insurance Fund (<http://www.nhif.bg/>). Extending Your Stay in Bulgaria

Issuance of a residence permit

All non-EU international students must extend their period of stay before the expiration of their Visa D for studies. That is done at the local police station with a set of documents.

Date of preparation of the documents: No later than 30 days before the expiration of your Visa.

Required documents

- Document stating that you are a student at VUM ("UVERENIE" - issued by International Office)
- Document for accommodation (if you are renting an apartment, you need the rental agreement; if you are staying at the VUM dormitories, the International Office will issue an accommodation document);
- Bulgarian Medical insurance for foreigners for a period of one year covering at least 30 000 EURO or 60 000 BGN, it can be done at an insurance agency;
- Criminal record extract, issued in your home country (for students 18 yrs. or older) - with an apostil, officially translated in Bulgarian and certified in the Ministry of Foreign affairs in Sofia, (which takes 5 working days); Russia and Ukraine are exempted from apostils;
- Document, stating that you have sufficient funds to support yourself while studying. It could be a bank statement for the amount of 1500 BGN and more, or a declaration stating that (with at least the minimum monthly wage in Bulgaria). The declaration must be filled out with your data and notarized;
- Copy of your Passport
- Copy of your Visa.
- Document from the Ministry of Education showing the major, what year the student is in, etc.

Procedure

The documents are submitted at the Migration Office 14 days before the expiration date of your Visa. Your Visa has duration of 180 days, so make sure you check the date.

The residence permit takes about 14 days to issue. You will be called to have your picture taken. There is a fee of 500 BGN for the 1-year period. It is also possible to apply for a 6-month period.

You must not allow your Visa to expire UNDER ANY CIRCUMSTANCES.

Travelling Outside Bulgaria

If you have obtained your visa or residence permit as a student, you are allowed to leave Bulgaria for holidays, field trips, etc.

However, when you return, you will have to prove to the Immigration Officer that you still meet the immigration requirements to enter Bulgaria as a student. So make sure that you have the necessary supporting documents ready in your hand luggage.

Schengen Visas

24 countries in the European Economic Area and Switzerland have signed the Schengen Agreement concerning common border controls. With a Schengen Visa, you can travel to any of the countries in the Schengen Space: Austria, Belgium, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Iceland, Italy, Latvia, Lithuania, Luxembourg, Malta, The Netherlands, Norway, Poland, Portugal, Slovakia, Slovenia, Spain, Sweden and Switzerland.

When you apply for a Schengen visa you are expected to have at least three months left on your Visa or Residence Permit from the date that you leave the Schengen Space, so plan any visit well in advance.

Staying in Contact

Post offices: Working hours of post offices are from 08:00 to 18:00. You can buy stamps and post cards at the post office desks as well as from newspaper kiosks. Single stamp for delivery inside Bulgaria costs 0.45 BGN. International postage vary according to destination.

162/229 mm, price 0.10 BGN (adhesive strip)

229/324 mm, price 0.16 BGN (adhesive strip)

A4, price 0.57 BGN (sealed air bubbles)

A5, price 0.47 BGN (sealed air bubbles)

Information about sending parcels you are able to find here: <http://www.bgpost.bg/?cid=151>

If you are receiving a parcel you should be aware that there might be some additional fees and taxes applicable, due to the customs rules and regulations.

Couriers:

Many of the world famous global courier services are to be found in Bulgaria like TNT and DHL as well as local ones like City Express and Econt.

Mobile operators:

The mobile phone network in Bulgaria is extensive and almost the whole country has mobile phone reception.

There are three mobile operators in Bulgaria:

- ✓ Telenor - <http://www.telenor.bg/en>
- ✓ MTel - <http://www.mtel.bg/>
- ✓ Vivacom.- <https://www.vivacom.bg/en/>

All of them have sufficient coverage throughout the country. Every operator has prepaid service cards which does not involve contract signing. Upon request your operator will gladly give you information about phone calling from a mobile phone in Bulgaria.

As the Varna University of Management has a contract with Vivacom, all students have the possibility to buy a SIM card from the accounting department in both campuses by choosing the plan that fits them best. If you consider taking a SIM card from VUM, then you should guarantee for it by leaving 50 BGN deposit. For more information approach the Accounting Department in Dobrich and Varna VUM Campus.

Public telephone service - you can make national and international calls from public payphones, using phone cards or tokens sold at post offices. Two companies operate the payphones - Bulfon's are orange and Betkom's are blue - so it is worth having a card for each, as they are not interchangeable! Calls can also be made from almost every post office outlet.

Television

In rented property, many apartments have cable television installed, but satellite TV can be arranged as an extra service. Bulgaria's national television station is National TV.
